

Pi Educational

A S S E S S M E N T

WHAT WE DO:

Schools face increased pressure to meet targets whilst also dealing with a growing number of vulnerable pupils who present with an array of learning, domestic, social and emotional needs which can significantly impact their ability to engage fully with teaching and learning.

This lack of engagement often leads to poor behaviour and pupils receiving Internal, Fixed-Term or even Permanent Exclusion which causes a disjointed education and a loss of learning to both themselves and fellow students.

At Pi Educational Assessment, we work closely with both schools and parents or guardians to meet the increasingly diverse needs of pupils, getting to the root cause/s of their difficulties and supplying detailed assessment reports, advice, and suggestions for ways in which those needs can be supported.

We offer a range of specialist packages as well as bespoke, one-off, assessments targeting specific concerns around Speech, Language & Communication and Cognition & Learning including investigating underlying Social & Emotional or Physical & Sensory needs.

In addition, we can provide a variety of SEND support services including training, help for SENDCOs, and Interim SENDCO provision.

HOW WE HELP:

- As a school, do you find you're struggling to demonstrate the progress of your SEND pupils in a mainstream setting? The range of assessments, and support we provide are regularly updated to meet the latest changes in educational requirements, enabling us to guarantee we can meet the many needs of our partner schools.
- We can provide CPD for your staff, along with guidance around the direction and content of the curriculum to support children and young people with SEND.
- We are able to assist with your applications for EHCP and with providing evidence for the review process.
- We offer support with identification of the various difficulties being experienced by a child or young person who may be at risk of Permanent Exclusion.
- We can provide support to parents, helping their SEND children and young people with any difficulties they may have engaging with teaching and learning, as well as guidance on how to improve their behaviour.

WHO WE ARE:

As Director and Specialist Assessment Teacher at Pi Educational Assessment, Mr John Clogan has more than 20 years experience in mainstream, PRU and special education.

In his joint roles as both classroom teacher and member of school leadership teams, John has worked with some of the most challenging and vulnerable pupils in Norfolk and Suffolk.

We can provide SEND Support and Inclusive School Support Service, specialising in learning assessments, behaviour management support and inclusion. We also offer SEND curriculum development and training.

Our detailed assessments have enabled schools and parents or guardians to access additional support and services they need to ensure that children and young people can make the most of their time in education.

We have an amazing success rate securing EHCP assessments and plans, as well as being able to provide you with additional access to a network of related professionals, all of whom can assist you in getting children and young people the support they need.

WHAT WE ASK:

Do you have children/young people in Reception to Year 13 who experience difficulties engaging with teaching and learning?

- *Do they struggle to meet expected progress?*
- *Are they sufficiently challenged?*
- *Does their behaviour result in exclusions?*
- *Have former interventions been unsuccessful?*
- *Would a more specialist view be useful?*
- *Are you able to meet pupils' academic needs?*
- *Would you like help applying for or reviewing an Education, Health and Care Plan (EHCP)?*

We perform a wide range of internationally recognised assessments in order to establish an in-depth profile of the specific needs of your child or young person.

We provide detailed reports of our findings which will outline what steps should be taken next and what support should be provided.

Assessments will be carried out in a suitable quiet space within the school*. We aim, where possible, to feedback our initial report by the end of the same working day.

** For parental referrals, assessments can be carried out either in-home or at school (subject to agreement).*

WHERE WE ARE:

We are based in Loddon, Norfolk, and cover the whole county, including north Suffolk.

At Pi Educational Assessment, we work with both Primary, Secondary, PRU and Special schools, as well as directly with the parents or guardians of children and young people.

If you would like to discuss your needs further, please feel free to get in touch.

Mr John Clogan
